# 20a. How does the Committee accomplish its purpose?

The purpose of the Committee is to advise, consult, and make recommendations, including industry outreach approaches, reflecting its independent judgment to the Commandant of the United States Coast Guard (USCG) on matters concerning the safe and secure marine transportation of hazardous materials. The Committee will be responsive to specific assignments and may conduct studies, inquiries, workshops and seminars as the Commandant may authorize or direct.

# 20b. How does the Committee balance its membership?

The Committee consists of not more than 25 members who are appointed and serve at the pleasure of the Secretary of Homeland Security. These members represent the viewpoints of the industries in the following categories: chemical manufacturing, vessel design and construction, safety and security, marine environmental protection, and marine handling or transportation of chemicals. A specific number of members are not allocated to any category to permit the number of members in a category to change to accommodate the issues being tasked to the Committee for consideration. However, all categories will be represented to ensure the Committee membership is fairly balanced across the sections of the maritime industry that are affected, interested, or qualified as appropriate to the nature and function of the Committee.

# 20c. How frequent and relevant are the Committee Meetings?

The Committee usually meets twice annually (generally spring and fall) to receive updates on

activities of the various subcommittees, to assign new tasks, and form new subcommittees as necessary to carry out these tasks. The subcommittees/working groups meet on an as-needed basis, depending on the tasks assigned by the Committee and the scope of work involved. Some subcommittees/working groups are able to carry out a portion of information collection by telephone, fax, or electronic correspondence. In FY23, the NCTSAC held two meetings in person, one in Washington DC and one in Texas City, TX

# 20d. Why can't the advice or information this committee provides be obtained elsewhere?

Issues and concerns relating to the marine transportation of hazardous materials in bulk are of particular importance to the U.S. Coast Guard. These issues are broad and diverse, and NCTSAC is the only advisory committee in existence that has the unique expertise and experience to advise the U.S. Coast Guard on these issues.

20e. Why is it necessary to close and/or partially closed committee meetings? N/A.

#### 21. Remarks

Under 46 U.S.C. § 15109(m), the Committee is authorized to continue until September 30, 2029.

### **Designated Federal Officer**

Dan Velez Chief, Hazardous Materials Division

**Number of Committee Members Listed: 23** 

#### **Narrative Description**

The National Chemical Transportation Safety Advisory Committee (NCTSAC) works in support of and in harmony with the United States Coast Guard's missions and goals. Specifically, NCTSAC advises, consults with, and makes recommendations, including industry outreach approaches, reflecting its independent judgment to the Commandant of the United States Coast Guard on matters concerning the safe, secure, and environmentally sound marine transportation of hazardous material in bulk.

Does the agency provide the committee with feedbackimplement recommendations or advice offered?  Yes No Not Applicable	ck regarding actions take	n to

### **Agency Feedback Comments**

The U.S. Coast Guard provides feedback by incorporating N-CTSAC's recommendations into published U.S. Coast Guard regulations and Navigation and Vessel Inspection

Circulars (NVIC); policy guidelines issued to the maritime industry; documents or papers submitted to domestic or international organizations; or other forms of policy documents. Representatives of the U.S. Coast Guard are at every full Committee, subcommittee, and working group meeting to act as program experts and offer support when needed. Thus, feedback at the working level is continuous and immediate. In addition, a summary of NCTSAC's accomplishments is prepared for each full Committee meeting and the agenda for each full Committee meeting calls for N-CTSAC's Designated Federal Officer (DFO) to inform the Committee about actions taken on N-CTSAC recommendations since the previous meeting. All recommendations are tracked in a N-CTSAC recommendation list that outlines all response/action taken as well as the status of all regulatory project information.
