**20a. How does the Committee accomplish its purpose?**

The Committee provides input to NIST on the Smart Grid Standards, Priority, and Gaps. The

Committee provides input on the overall direction, status and health of the Smart Grid implementation by the Smart Grid industry, including identification of issues and needs. Input to NIST is used to help guide the Smart Grid Interoperability Panel activities and also assists NIST in directing research and standards activities.

**20b. How does the Committee balance its membership?**

Members reflect the wide diversity of technical disciplines and competencies involved in the Smart Grid deployment and operations, and come from a cross section of organizations. Members are from organizations such as electric utilities, consumers, IT developers and integrators, smart grid equipment manufacturers/vendors, RTOs/ITOs, electricity market operators, electric transportation industry stake holders, standards development organizations, professional societies, research and development organizations and academia.

**20c. How frequent and relevant are the Committee Meetings?**

The Committee meets approximately two times per year at the call of the DFO.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The Committee was established to advise the Director of the National Institute of Standards and Technology (NIST) in carrying out duties authorized by section 1305 of the Energy Independence and Security Act of 2007 (Pub. L. 110-140).

**20e. Why is it necessary to close and/or**
