18d. Total	\$0.00	\$0.00
19. Federal Staff Support Years (FTE)	0.00	0.00

20a. How does the Committee accomplish its purpose?

To accomplish broad program goals, the Committee is made up of members from the National Heart, Lung, and Blood Institute (NHLBI), as well as representatives from other Federal agencies, intermediaries including major medical associations, voluntary health organizations, and community programs.

20b. How does the Committee balance its membership?

The Committee will consist of up to 15 voting members. Members will consist of Federal

employees, Special Government Employees (SGEs), and Representatives. In addition, one official from the Division of Lung Diseases, and one official from the Center for Translation Research and Implementation Science will serve as co-Chairs of the Committee. At least three members will represent government agencies, from among the NIH national research institutes and centers involved in research with respect to asthma, the Department of Housing and Urban Development, the Centers for Disease Control and Prevention, or any other Federal departments and agencies whose programs involve health functions or responsibilities relevant to this disease. At least three non-Federal members will serve as Special Government Employees selected from the health and scientific disciplines with respect to asthma. At least three non-Federal members will serve as Representatives from professional societies, voluntary health organizations, and community programs whose purpose is to enhance the quality of life for patients with asthma and decrease asthma-related morbidity and mortality.

20c. How frequent and relevant are the Committee Meetings?

The Committee meets approximately twice per year. In FY23 the committee met once on September 22, 2023.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The Committee's primary mission is to provide advice to the National Heart, Lung, and Blood Institute (NHLBI) on matters concerning asthma and to facilitate the efficient and effective exchange of information on asthma activities among the member agencies and voluntary health organizations in order to enhance coordination of

asthma-related programs and activities.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A.

21. Remarks

Reports: This committee did not produce any public reports. Chairs: This committee is structured to have co-chairs, based on positions held within the Institute, designated by the Charter. Their end dates have been updated to 2/28/2027. Members: Dr. Christy Hass-Howard (Representative) was reappointed in 2023 for 2 more years; her term end date has been updated to 02/28/2025. Dr. Tyra Bryant-Stephens (Special Government Employee member) and Dr. Michelle Cloutier (Special Government Employee member) were reappointed in 2023 for 3 more years; their term end dates have been updated to 02/28/2026. Drs. James Kiley (Regular Government Employee) and George Mensah (Regular Government Employee) were reappointed in 2023 for 4 more years, their term end dates have been updated to 02/28/2027. Patrice Becker (Federal member) was inadvertently left off of the FY22 members report due to a September start date; she has been added this year with term of 9/1/22-2/28/26. The appointment start date for Emily DiMango was incorrect in the FY2022 members report. The appointment start date has been corrected on the FY20203 report to July 31, 2022. Membership and Charter requirements: The Charter allows the committee to have up to 15 members (up to 5, no less than 3 Federal members; up to 5, no less than 3 Representative members, and up to 5, no less than 3 Special Government Employee members). Two members, one Federal member and one Representative

member, from the 2023 nomination slate declined to serve. At the time this report is generated, only 2 Representatives are among current membership due to the 2023 Representative nominee declination.

Designated Federal Officer

Susan Shero Public Health Advisor

Committee Members	Start	End	Occupation	Member Designation
Becker, Patrice	09/01/2022	02/28/2026	Section Chief, Asthma & Airways Branch, National Institute of Allergy & Infectious Diseases, NIH	Regular Government Employee (RGE) Member

Narrative Description

NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability. NIH works toward that mission by the establishment of the National Asthma Education Prevention Program (NAEPP) Coordinating Committee to provide advice and guidance concerning the NAEPP, Division of Lung Diseases, National Heart, Lung, and Blood Institute.

What are the most significant program outcomes associated with this committee?

Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

15

Number of Recommendations Comments

Recommendations made by the Committee in FY 2023: 1. The committee recommended enhancing linkage and coordination with stakeholders outside of the traditional healthcare system, for example, schools and daycare centers; parks and recreation centers; libraries; faith-based organizations; food services organizations; payers; and state and local

government agencies to increase the reach and impact of asthma programs. 2. The committee recommended asking community partners to inform us about next steps and work with the “boots on the ground” organizations such as community-based organizations, primary care practices, and faith-based organizations to implement proven strategies. 3. The committee recommended focusing on discussions regarding building infrastructure to support resilience against impacts of climate change, air quality, heat, flooding, on people with asthma, as these climate effects have shown disproportionate effects on people who have asthma (e.g., ED visit rates during high temps or wild fires and poor air quality). 4. The committee recommended integrating human centered design expertise into new asthma programs.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

Due to the complexity of the recommendations made by this committee, staff is unable to determine which recommendations have been fully or partially implemented solely in response to this committee's activities.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

0%

% of Recommendations Partially Implemented Comments

Due to the complexity of the recommendations made by this committee, staff is unable to determine which recommendations have been fully or partially implemented solely in response to this committee's activities.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

Information is provided to the public at each meeting. The public can view information related to the Committee through the committee's official website.

What other actions has the agency taken as a result of the committee's advice or recommendation?
