20a. How does the Committee accomplish its purpose?

The 15 members of the Utah RAC collaborate and coordinate to provide advice and recommendations to the BLM on resource and land management issues for 22.8 million acres of Federal public lands in Utah.

20b. How does the Committee balance its membership?

The Utah RAC is comprised of 15 members distributed in a balanced fashion among the following interest groups: Category I - Federal grazing permits or leases; transportation or rights-of-way; developed outdoor recreation, OHV users, or commercial recreation activities; commercial timber industry; or energy and mineral development; Category II - nationally or regionally recognized environmental organizations;

dispersed recreation activities; archaeological and historical interests; or nationally or regionally recognized wild horse and burro interest groups; Category III - State, county, or locally elected office-holders; employee of a State agency responsible for the management of natural resources; Indian Tribes within or adjacent to the area for which the RAC is organized; academicians in natural resource management or the natural sciences; or the public at large.

20c. How frequent and relevant are the Committee Meetings?

Generally, the Utah RAC meets approximately two to three times annually. The RAC meetings are very relevant to the BLM as the RAC members discuss current land management issues facing BLM Utah and make recommendations for action to the State Director.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

RAC members are carefully selected based on expertise, experience, and overall familiarity with public land management issues. The RAC is needed to provide advice to the BLM's Utah State Director on resource and land management issues. In addition, the Federal Lands Recreation Enhancement Act (FLREA) requires the Department of Agriculture and Interior to establish a Recreation Resource Advisory Council (RRAC) to provide advice and recommendations on recreation fees and fee areas in each State or region for Federal recreational lands and waters managed by the BLM or U.S. Forest Service (USFS). The law allows agencies to use existing RACs or establish new RRACs. For the State of Utah, the existing statewide BLM Utah RAC is designated to perform RRAC responsibilities

pertaining to both BLM and USFS managed Federal lands and waters per the national interagency agreement between the USFS and BLM.

20e. Why is it necessary to close and/or partially closed committee meetings?

All meetings are open to the public.

21. Remarks

The RAC met on October 19, 2022; January 18, 2023; May 17-18, 2023; and August 15-16, 2023.
