20a. How does the Committee accomplish its purpose?

The AAAC will act solely in an advisory capacity and will not exercise program management responsibilities. Decisions directly affecting implementation of transportation policy will remain with the FAA Administrator and the Secretary of Transportation. The AAAC will: a. Undertake only tasks assigned by the FAA. b. Deliberate on and approve recommendations for assigned tasks in meetings that are open to the public. c. Respond to ad-hoc informational requests from the FAA and or provide input to the FAA on the overall AAAC structure (including the structure of subcommittees and or task groups).

20b. How does the Committee balance its

membership?

The AAAC is structured to ensure a balance of various UAS, AAM and manned aviation stakeholders. The AAAC will comprise 41 representatives from key UAS, and AAM stakeholder organizations. The AAAC chairperson and AAAC DFO will review AAAC membership annually to ensure balanced representation that equitably represents, to the extent feasible, the UAS and AAM stakeholder communities.

Membership is based on the ability to represent the interests of an organization or constituency authoritatively and effectively.

20c. How frequent and relevant are the Committee Meetings?

Estimated to hold 3 meetings annually.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The purpose of the AAAC is to provide advice to FAA and key decision-makers to support the safe integration of Unmanned Aircraft Systems (UAS) and Advanced Air Mobility (AAM) operations into the National Airspace System (NAS). The FAA has a compelling need to establish AAAC in the public's interest to identify and propose recommendations on how best to resolve key issues affecting the efficiency and safety of integrating UAS and AAM into NAS.

20e. Why is it necessary to close and/or partially closed committee meetings?
