19. Federal Staff Support Years (FTE)	0.00	0.00

20a. How does the Committee accomplish its purpose?

Our committee accomplished its purpose by aligning with VA Strategic Goals ensuring the implementation and assessment of impacts of programs and policies especially for underserved, at-risk, or marginalized Veteran populations including but not limited to populations experiencing homelessness, women Veterans, LGBTQ+ Veterans, aging Veterans, those living in rural settings, those with complex chronic physical or mental health conditions, or Veterans with disabilities. Goal 1: VA consistently communicates with its customers and partners to assess and

maximize performance, evaluate needs and build long-term relationships and trust. Recommending research on the MISSION Act that includes evaluations of the quality of comprehensive care within the VA and outside the VA, and work to understand the role of VA specialty care resource hubs. Goal 2: VA delivers timely, accessible, high-quality benefits, care and services to meet the unique needs of Veterans and all eligible beneficiaries. Recommending research that will evaluate a variety of evidence-based interventions to occur in Community Living Centers, in addition to assessing interventions targeted to caregivers. Goal 3: VA builds and maintains trust with Stakeholders through proven stewardship, transparency and accountability. Regularly reporting results of funded research on the VA-HSR&D website, in addition to ensuring and requiring publication of results in a variety of scientific journals and other mediums. Goal 4: VA ensures governance, systems, data and management best practices improve experiences, satisfaction, accountability and security. Recommending more innovative, high-risk, high-impact research that will transform practices rather than incrementally improve them; lead to larger impacts in clinical or population health outcomes or move health services research in new directions. In FY23, HSR&D was also supportive of research that involved the creation of original products or that adopted an existing process or product in a new or unusual way. In 2023, HSR&D hosted two Board meetings in addition to its Subcommittee scientific review meetings. In March 2023, the Board reviewed the scientific evaluation of 134 research applications by Subcommittees and recommended 124 for further consideration. In August 2023, the Board reviewed the scientific evaluation of 149 research

applications by Subcommittees and recommended 136 for further consideration.

20b. How does the Committee balance its membership?

The members of the Board are experts (collectively) in the following areas: (1) the health sciences and practices (medicine, nursing, gerontology, clinical psychology, social work); (2) the social sciences (sociology, psychology, economics, etc.); (3) operations research, computer science, informatics, and (4) research methods, biostatistics, epidemiology. Members of the Board are assigned according to their expertise and experience to the following subcommittees: Health Care and Clinical Management; Behavioral, Social and Cultural Determinants of Health and Care; Healthcare Informatics; Mental and Behavioral Health; Health Care System Organization and Delivery; Long-Term Care, Aging and Support Services; Special Emphasis Panel (MISSION Act and Opioids); Mentored Research Awards (Career Development Award and Nursing Research Initiative); and Quality Enhancement Research Initiative.

20c. How frequent and relevant are the Committee Meetings?

The Board is scheduled to meet twice a year based upon a merit review submission cycle that occurs in the Winter and Summer. The Board provides for the fair and equitable selection of the most meritorious research projects for support by VA research funds and offers advice for research program officials about program priorities and policies. The Board ensures the high quality and mission relevance of VA's legislatively mandated Health Services Research and Development

program through the activities of this Federal Advisory Committee Act chartered and appointed Scientific Merit Review Board. The Board reviews proposals administered locally by VA field facilities for scientific and technical merit and advises the Director of Health Services Research and Development and Chief Research and Development Officer regarding the scientific merit of applications related to Board members' areas of expertise. The Board and its subcommittees review proposals using a web-based program (WebEx) and teleconference, in order to maintain technical excellence and to uphold the integrity and credibility of the scientific merit peer review process. Subcommittee meetings (more than 8 hours and often more than one day) involve vigorous discussions about the strengths and weaknesses of the proposals, and then reviewers come to a consensus regarding the critical elements that need to be conveyed to the Principal Investigator to improve the proposed research.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The expertise needed to review submitted proposals and provide advice to the Director, Health Services Research and Development Service, is not available within the Service staff. It would be neither appropriate nor cost-effective to attempt to use staff for this review. Involving staff in the scientific review process would raise conflict of interest and potential bias concerns. It would not be efficient or economically feasible to staff the variety and depth of scientific expertise required to actually produce scientific reviews for the applications received by Health Services Research.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings are partially closed because of the confidential nature of the proposals being reviewed and the integrity of the peer review process. Scientific proposals contain research ideas original to the applicants and do not become public until they are printed in scientific journals.

21. Remarks

HSR&D costs remained fairly consistent in FY 2023 compared to FY 2022.

Designated Federal Officer

Tiffin Ross-Shepard Designated Federal Officer

Committee Members	Start	End	Occupation	Member Designation
Carlson, Kathleen	03/01/2021	03/01/2025	VA Portland Health Care System, Associate Professor, The Oregon Health & Science University (OHSU), Portland, OR	Regular Government Employee (RGE) Member
Degenholtz, Howard	03/01/2023	03/01/2027	Professor, University of Pittsburgh, Department of Health Policy & Management, School of Public Health, Pittsburgh, PA	Special Government Employee (SGE) Member
Dobscha, Steven	03/01/2020	03/01/2024	HSR&D Center of Innovation, Portland, 3710 SW US Veterans Hospital Road, R&D 66, Portland, OR	Regular Government Employee (RGE) Member

Number of Committee Members Listed: 79

Narrative Description

The Board supports the Agency's Strategic Goal #2, which states: VA delivers timely, accessible, high-quality benefits, care and services to meet the unique needs of Veterans and all eligible beneficiaries. More specifically, it supports VA's Health Services Research and Development mission to improve Veteran health by developing, testing, and implementing strategies that improve the organization, delivery, and effectiveness of health care and related services for Veterans. HSR funds studies that examine the organization, financing, management and social factors of health care and their effects on the access, quality, safety, equity, and experience of care delivered to Veterans.

What are the most significant program outcomes associated with this committee?

Checked if
Applies

Improvements to health or safety	<input checked="" type="checkbox"/>
Trust in government	<input type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input checked="" type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input checked="" type="checkbox"/>
Increased customer satisfaction	<input type="checkbox"/>
Implementation of laws or regulatory requirements	<input type="checkbox"/>
Other	<input type="checkbox"/>

Outcome Comments

N/A

What are the cost savings associated with this committee?

Checked if Applies

None	<input type="checkbox"/>
Unable to Determine	<input checked="" type="checkbox"/>
Under \$100,000	<input type="checkbox"/>
\$100,000 - \$500,000	<input type="checkbox"/>
\$500,001 - \$1,000,000	<input type="checkbox"/>
\$1,000,001 - \$5,000,000	<input type="checkbox"/>
\$5,000,001 - \$10,000,000	<input type="checkbox"/>
Over \$10,000,000	<input type="checkbox"/>
Cost Savings Other	<input type="checkbox"/>

Cost Savings Comments

N/A

What is the approximate Number of recommendations produced by this committee for the life of the committee?

4,495

Number of Recommendations Comments

This is a total of proposals and programs funded from FY 2003 through FY 2023.

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

90%

% of Recommendations Fully Implemented Comments

The recommendations plus the numerical score and Board members' key summary points provide guidance to the Director of HSR&D and the Chief Research and Development Officer in making funding decisions.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

5%

% of Recommendations Partially Implemented Comments

Responsiveness to priority solicitations will be considered in funding decisions.

Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?

Yes ☒ No ☐ Not Applicable ☐

Agency Feedback Comments

Feedback is provided in the minutes distributed to the Board and in communications with members regarding their specific proposal summaries of discussion and summary statements provided to principal investigators. The public can obtain agency feedback by reviewing the Board meeting minutes on the ACOMO website

(https://www.va.gov/ADVISORY/Health_Services_Research_and_Development_Service_Merit_ as well as the list of awarded projects on the HSR website

(<https://www.hsr.research.va.gov/research/pre-funded.cfm>)

What other actions has the agency taken as a result of the committee's advice or recommendation?

Checked if Applies

Reorganized Priorities	<input type="checkbox"/>

Action Comments

HSR&D is an intramural research program. Only VA scientists are eligible applicants. The Board members make recommendations of approval or disapproval, and assign a scientific merit score that HSR&D uses to determine which projects to fund. Research monies are transferred to the appropriate VA stations to support the research that is scientifically meritorious. In 2023, HSR&D hosted two Board meetings in addition to its Subcommittee scientific review meetings.

Is the Committee engaged in the review of applications for grants?

No

Grant Review Comments

HSR&D is an intramural research program. Only VA scientists are eligible applicants.

Therefore, the Board does not consider grants to outside entities.

How is access provided to the information for the Committee's documentation?

Checked if Applies
