The Act describes the duties of the committees as follows: to review projects proposed by counties and other interested parties; to recommend projects and funding; to provide early and continuous coordination with Forest Service officials; to provide frequent opportunities for

citizens, organizations, tribes, land management agencies and other interested parties to participate openly and meaningfully, beginning in the early stages of project development; to monitor projects approved under the Act; to advise the designated federal official on the progress of monitoring; and to make recommendations for any appropriate changes or adjustments to projects being monitored.

20b. How does the Committee balance its membership?

The committee is comprised of 15 members, five in each of three categories prescribed in the Act. Within each category, the Act identifies specific interests members are to represent. Committees are formed in geographic areas to ensure each national forest located within a participating county or counties has access to a resource advisory committee. The Act requires members to be residents of the state or states within which the committee has jurisdiction.

20c. How frequent and relevant are the Committee Meetings?

Generally, the committee may meet 1-4 times per year as needed to perform its duties.

Narrative Description

This Resource Advisory Committee (RAC) is mandated by Congress, under section 205 of PL 106-393, the Secure Rural Schools and Community Self-Determination Act of 2000. The Committee was established for two purposes: (1) to improve collaborative relationships among the people who use and care for the National Forests and the Forest Service, which manages the lands; and(2) to provide advice and recommendations to the Forest Service in identifying and implementing broadly supported land management projects that maintain existing infrastructure, enhance

forest ecosystems, and improve land health and water quality. The RAC directly supports the agency's mission goal for ecosystem health: to Promote ecosystem health and conservation using a collaborative approach to sustain the Nation's forests, grasslands, and watersheds. By recommending projects that maintain and improve the health of national forest ecosystems and improve cooperative relationships among the people who use and care for the national forests, the Secure Rural Schools resource advisory committees support the Forest Service mission to sustain the health, diversity, and productivity of the Nation's forests and grasslands to meet the needs of present and future generations. The committees specifically support Forest Service strategic goals to 1. Restore, sustain, and enhance the national forests; and 2. Provide and sustain benefits to the American people.
