20a. How does the Committee accomplish its purpose?

The NACCD conducts working group and public meetings to identify, discuss, and deliberate on specific issues within the scope of the charter, making recommendations and providing advice to HHS consistent with FACA.

20b. How does the Committee balance its membership?

Members shall be appointed by the HHS Secretary from among the nation's preeminent scientific, public health, and medical experts in areas consistent with the purpose and functions of

the advisory committee. The HHS Secretary, in consultation with such other heads of federal agencies as may be appropriate, shall appoint a maximum of 25 members to the NACCD, ensuring that the total membership is an odd number.

Non-federal voting members include representatives from State, local, Tribal, or territorial government agency, experts in public health emergency preparedness, response, and recovery, pediatric medical specialists of multiple types (including children's hospitals), as well as experts in schools, caregivers, and children with disabilities.

20c. How frequent and relevant are the Committee Meetings?

NACCD full committee and subcommittees meet periodically as determined by the DFO and the chairpersons, but at least twice per year in-person with participation from the general public.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The mission and composition of the NACCD is unique, with no other entity specifically organized to provide advice and recommendations that meet the special needs of children and their families in disaster preparedness, response, and recovery. The NACCD provides a unique combination of scientific, operational, policy, and social perspectives that is complementary to and distinct from other FACA in HHS.

20e. Why is it necessary to close and/or partially closed committee meetings?
