Inclusion of motorcycle specific signage in the MUTCD is complete. Development of a brochure for use by State and local agencies entitled: Roadway Safety for Motorcycles - Tips for Designing, Constructing, and Maintaining Roadways for Increased Motorcycle Safety is complete.

What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?

20%

% of Recommendations Partially Implemented Comments

The MAC has recommended examination and development of web based tools to notify State and local DOT's of road hazards of concern to motorcyclists. The MAC has recommended the sites incorporate functionality to provide riders with this information until repairs are affected. This project is ongoing. RoadHazard.org is a benchmark site that provides this service to Florida, Indiana, Illinois and Ohio. The MAC has shown interest and recommended investigation of a number of R&T issues that affect motorcyclists including: •Examining the skid resistance of intersection markings•Improving retro-reflectivity of signs and roadway markings•Considering the use of wider lane markings in order to increase visibility•Reviewing barrier designs used internationally, and identify those that are most forgiving when impacted by motorcyclists• Examining the use of various sealants on road surfaces

Action Comments

As a result of the MAC-FHWA's input, a trifold publication has been developed: Roadway Safety for Motorcycles(FHWA-SA-07-012) and a website has been established <http://safety.fhwa.dot.gov/mac/>. In addition, motorcycle infrastructure concerns are being addressed in the work zone safety grants program and motorcycle resolutions are being implemented at AASHTO. Also, the MAC-FHWA is working with the MUTCD re: motorcycle signage for the next edition of the Manual.
