20a. How does the Committee accomplish its purpose?

At a time of fundamental and rapid transformation within the DOD, the U.S. European Command is looking for insight into the major issues across

their areas of responsibility which will help them map the road ahead. Provide guidance and assistance to the U.S. European Command on subjects related to basing, strategy, and political matters.

20b. How does the Committee balance its membership?

The committee will be balanced among military and civilian national security experts, academicians, and civilian leaders in the public sector.

20c. How frequent and relevant are the Committee Meetings?

This committee plans to meet up to four times per year.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The U.S. European Command needs the challenge of diverse and divergent views on their operations to assist them in planning for the future. The Command does not have the staff or expertise to provide them the depth and breadth of information on the 93 countries which fall within their area of responsibility.

20e. Why is it necessary to close and/or partially closed committee meetings?

In accordance with 5 USC, App. 2, Section 1, et seq. and Executive Order 12958 of 17 April 1995; the meetings of this committee will be evaluated per the forecasted agenda for closure as required based on the classification level of material presented for review. The closed meetings will be announced in the Federal register.

21. Remarks

The committee issued no separate reports for fiscal year 2006; however, it did make several recommendations to the committee's decision maker, which were contained in the committee's meeting minutes. The Department of Defense is terminating this discretionary advisory committee effective September 30, 2008.

What is the approximate <u>Number</u> of recommendations produced by this committee for the life of the committee?

10

Number of Recommendations Comments

The recommendations from the SAG members reflect different strategies on how EUCOM can pursue its objectives with the private sector and various interagencies. During this fiscal year the committee only met once and there were no specific recommendations provided to the government's decision maker. It should be noted that the government's decision maker was retiring and the committee deferred additional considerations until appointment of a new EUCOM commander.

What is the approximate <u>Percentage</u> of these recommendations that have been or will be <u>Fully</u> implemented by the agency?

30%

% of Recommendations Fully Implemented Comments

Since we just had another meeting on 3 Oct 2006, it is hard to determine what percentage of the above recommendations will be fully implemented by EUCOM. Ultimately, DoD, National Interests and funding determines our success.
