**20a. How does the Committee accomplish its purpose?**

The committee reviews malaria vaccine development progress and plans on a semi-annual or annual basis. Following an extensive review of data and progress presented by MVDP staff or collaborators, the committee deliberates and makes recommendations on specific approaches to malaria vaccine development, which are then incorporated into the plans as appropriate.

**20b. How does the Committee balance its membership?**

The committee includes members with experience in industry and academia, and with expertise in vaccine development, malariology, immunology, molecular biology, and clinical evaluation of vaccines. Both broad and specific technical advice is therefore available.

**20c. How frequent and relevant are the Committee Meetings?**

The meetings are held semi-annually or annually to provide the necessary oversight to ensure the continuing appropriate conduct of the program. The MVDP staff sets the agenda in consultation with the committee chairman and members and invites collaborators to present recent work. As such, the committee is presented with the most relevant and up-to-date information on which to make their recommendations.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

The committee is necessary to provide the requisite transparency and credibility to the process. Also, the MVDP staff value the committee's broad experience in all fields of malaria vaccine development and rely on the committee members for assistance in planning program direction.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

Portions of the meetings may be closed so that any issues pertaining to budget and procurement can be discussed openly.
