20a. How does the Committee accomplish its purpose?

An important function of the commission is to monitor specific work projects and activities on the river throughout the year and to ensure that standards established in the River Conservation Plan are continuing to be met. The Commission issues advice and opinions and coordinates all recommendations through the Jackson Board of Selectmen and occasionally makes recommendations on broader political and land protection issues that may affect the Wildcat River. In addition to monitoring the river condition, as well as projects and activities occurring on the

river, the Commission has completed a draft comprehensive river conservation plan. The comprehensive plan will include the River Conservation Plan of 1987 and an Addendum, now in final draft form, which incorporates the existing Town of Jackson plan for private and municipal land and additional guidelines for managing the Wildcat River. The Addendum to the Wildcat River Conservation Plan of 1987, when completed, will be published in the Federal Register.
